Specific Pathology Course Specifications (2010-2011)

Program(s) on which the course is given: BVSc
Department offering the program: ---
Department offering the course: Pathology and Parasitology
Major or Minor element of programs: Major
Academic year /Level: 4th Year 1st semester
Date of specification approval:

A. BASIC INFORMATION

Title: Specific Pathology  
Code: 4APAT
Hours:
  Lectures  2 hrs/week  Practical  2 hrs/week  Total 60 hrs

B. PROFESSIONAL INFORMATION

1. Overall aims of the course:
   - Knowledge: about the basic alterations and deviations than the normal anatomic, histologic, biochemical and physiologic limits in the body in relation to various causative agents.
   - Skills: assisted for diagnostic program in various individual cases as well as outbreaks of diseases by biopsy, postmortem and histopathologic examination.

2. Intended Learning Outcomes (ILOs) of the Course:
   a. Knowledge and Understanding:
      a1 Morphopathologic changes that may diagnostic for diseased conditions in morbid or dead animals.
      a2 Basic and characteristic lesions (tissue alterations) as a means for the exact diagnosis for the diseased condition and/or the causative agents.

   b. Intellectual Skills:
      b1 Comparative criteria between the various characteristic gross or macroscopic lesions.
      b2 Comparative criteria between the various characteristic or pathognomonic tissue alterations (microscopic).
      b3 Give the final identification and diagnosis for the pathologic condition to help in solving measures.
c. Professional and Practical Skills:
   c1 Roles in detecting and identifying the lesions, by gross observations (by using dissecting tools for biopsy and postmortem examination) or by microscopic examination (using histopathologic techniques and light microscopy).

d. General and Transferable Skills:
   d1 Good communications.
   d2 Use of new technology.
   d3 Group working, good management and problem solving ability.

3. Contents:

<table>
<thead>
<tr>

4. Teaching and Learning Methods:
   4.1 Lectures and practical of every topic in the course.
   4.2 Collection of some information from text books.
   4.3 Field cases (morbid or dead animals from farms and villages).
   4.4 Examine the morbid or dead cases in Faculty (Dissecting room for postmortem examination).

5. Student Assessment Methods:

   **Exam**
   
   5.1 Written Mid-term To assess the ability to understand and remember knowledge, and intellectual skills
   5.2 Written Final-term To assess the ability to understand and remember knowledge, and intellectual skills
   5.3 Practical Final-term To assess professional and practical skills
   5.4 Oral Final-term To assess skills of analysis and discussion

**Assessment Schedule** (in each semester):

<table>
<thead>
<tr>
<th>Exam</th>
<th>Week</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assessment 1</td>
<td>Written Mid-term</td>

6. List of References:
   6.1. Course Notes:
      ▪ Printed Course Notes By Staff Members
   6.2. Essential Books:
      ▪ Smith, H.A.T., Jones, T.C. and Hunt, R.D. (Textbook of Veterinary Pathology)
   6.3. Recommended Books:
      ▪ COHRS, P. (Special Pathological Anatomy OF Domestic Animal).
   6.4. Periodicals, websites, … etc
      ▪ Nothing

7. Facilities Required for Teaching and Learning
   ▪ Microscopes, computers
   ▪ Overhead projectors, Scientific CD's
   ▪ Audio-Video aids, and mobile screens for exhibition.
   ▪ Tissue processor
