Answer TWO only of the following questions:

- 1) Jeremy Bentham introduced the idea of the "Panopticon" or the "Inspection House." Michel Foucault's analysis of this idea finds in it a shift from physical to mental control. Explain Bentham's idea and Foucault's analysis of it. (50 Marks)
- 2) Explain Thomas Malthus's theory of population as a product of Nineteenth Century thought. (50 Marks)
- 3) What are the main ideas of August Comte's philosophy of Positivism? Although it aimed at precision and getting rid of superstition, do you think it fits the human sciences? What image of the world does it offer? (50 Marks)
- 4) John Stuart Mill was a student of Jeremy Bentham and was influenced by his philosophy of Utilitarianism. Nevertheless, there is a difference between his vision and that of Bentham. Explain the main ideas of Utilitarianism and the difference between Mill's and Bentham's visions. (50 Marks)
