

Astronomy & Astrophysics

Legend

<p>No. Journal Rank, PII JII PII B2(2005) B4(2005) B6(2005) Rank, JII %</p>	<p>The row number of the journals in the result table. The name of the journal. The rank of journal among all journals based on PII. Journal Influence Index, the score of the journal calculated by our method, the bigger the more impactful. Paper Influence Index, the JII divided by Article Number multiplied by 1000. The average number of citations received by papers published in the journal in the 2 preceding years before 2005 (2004,2003) from all the papers published in 2005. The average number of citations received by papers published in the journal in the 4 preceding years before 2005 (2004-2001) from all the papers published in 2005. The average number of citations received by papers published in the journal in the 6 preceding years before 2005 (2004-1999) from all the papers published in 2005. The rank percentage based on JII (Division of JII on the highest JII value) X 100</p>
